

Module stores up to 20 seconds of sound and plays it back instantly at the touch of a button. Put it in a box you can carry to record a reminder, to-do list or phone number! Instant record and playback-no waiting for tapes to rewind. All included components (shown below) are prewired.

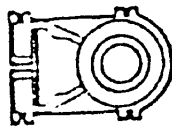

Battery Holder

Circuit Board

Record Switch

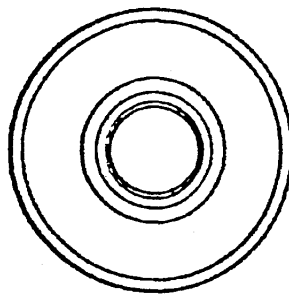

Play Switch

Mic

Power-On
LED

Speaker

Completely digital operation delivers crystal-clear playback. Messages are stored on a special computer chip so you can keep a message stored forever (even without batteries)—ideal for making a special keepsake for a loved one.
